"Life is beautiful. It's about giving. It's about family." - Walt Disney

Hello Everyone!

Our OFSTED report is now on our website. We are thrilled with its content, especially the focus on our quality of support to you and the progress that your children and young people are making. You make us proud.

Warm memories are made with family...

The Ofsted inspector commented...

'The agency staff and carers all share a therapeutic child-focused approach and a determination to achieve the best outcomes for children. One foster carer said, 'It takes a village to raise a child. That is the agency's mantra and that is what they [the agency staff] are really doing. We do it together. I love it.'

'Carers and agency staff have, on occasion, gone above and beyond expectations to support children. For example, the agency sourced and funded an educational assessment, and one carer moved house to ensure that their child goes to a school that the carer believes will provide the bespoke educational help and support that the child needs.'

'Carers feel well supported by their agency social worker and find the agency support consistently responsive and effective. One foster carer said, 'I have never been this connected as a foster carer in my 20 years. There is real wraparound support.'

Take care.....

Our village motto is all about being available when you need us, and we love the interaction that goes on in the WhatsApp group. We feel this is an important part of fostering with us.

We hope you enjoyed your Easter packs. What did some of the older children buy with their vouchers? Let us know on The Village. Thank you for sharing your photos.

Easter activity packs being enjoyed by our families.

Are you celebrating the Coronation this weekend?

My village is having an afterparty... a picnic, ice cream van, outdoor games and the pub is open! Are your children feeling creative!

Send us photos of your creations... a crown, a painting, a collage...
